

# Plato Dublin Seminars

*Your Small Business Development Network*

## Prioritising for Success Master Class

The Prioritising for Success Master Class will provide you with a simple, practical, model which will help you distinguish between essential and non-essential tasks, enabling you to focus on what will create the greatest impact on your business.

### Key Deliverables:

- Master how to pro-actively grow your business and give it direction
- Learn how to focus your efforts on high value activities
- Gain the confidence that you need to drive ideas forward

*Make sure you are doing the RIGHT things...then focus on doing them WELL...*

The day includes lunch, a practical workbook and loads of one-to-one support to help you develop a personalised *High Value Activities* actions plan for your business. You will also explore what gets in the way of your creativity and productivity in order to ensure that you leave with the skills and attitude to implement and continuously develop your action plan going forward.

### Facilitator: Dayna Caceres, Distinctions.ie

Distinctions work with business owners and managers, to help them plan for and achieve their goals, by helping them feel empowered and in control of the immediate issues, and the future growth strategy of their business.
